Features description navigation

New Job

Fill up your client's details and save as your record and calculate the GST and Levy

Advance Job - how to save your advance job?

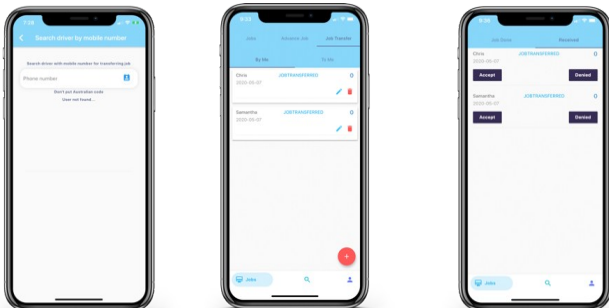

Whenever your client book the vehicle for following 2 or more days. You as a driver can save that jobs in advance on your calendar dates.

Later when you as a driver pick up your client for those advance bookings, then you can select the start option to pick the client and finishing option when client reach the destination and it will save everything on your dashboard.

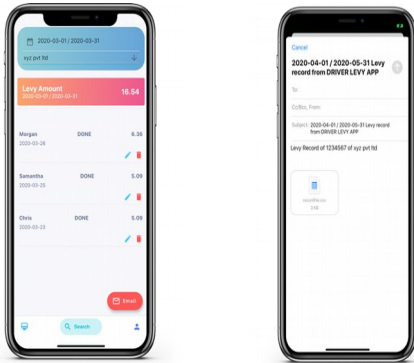

you can also transfer the job to your co-worker and everything will be automatically saved on your dashboard.

This process can save your booking time as well as starting time and finishing time on your dashboard.

Transfer Job

You can transfer the job to your co-worker or other driver through same App. First your Co-worker or other driver accept the job. And then after they start or end the job. It will automatically save on your records.

Search

In search option, you can find the jobs through calendar dates. Then saved excel sheet record will send through the email to yourself. This record show the GST, Expenses and LEVY as well.

In Profile Page.
